

TRANQUIL

The relaxation mobile website for New School Students

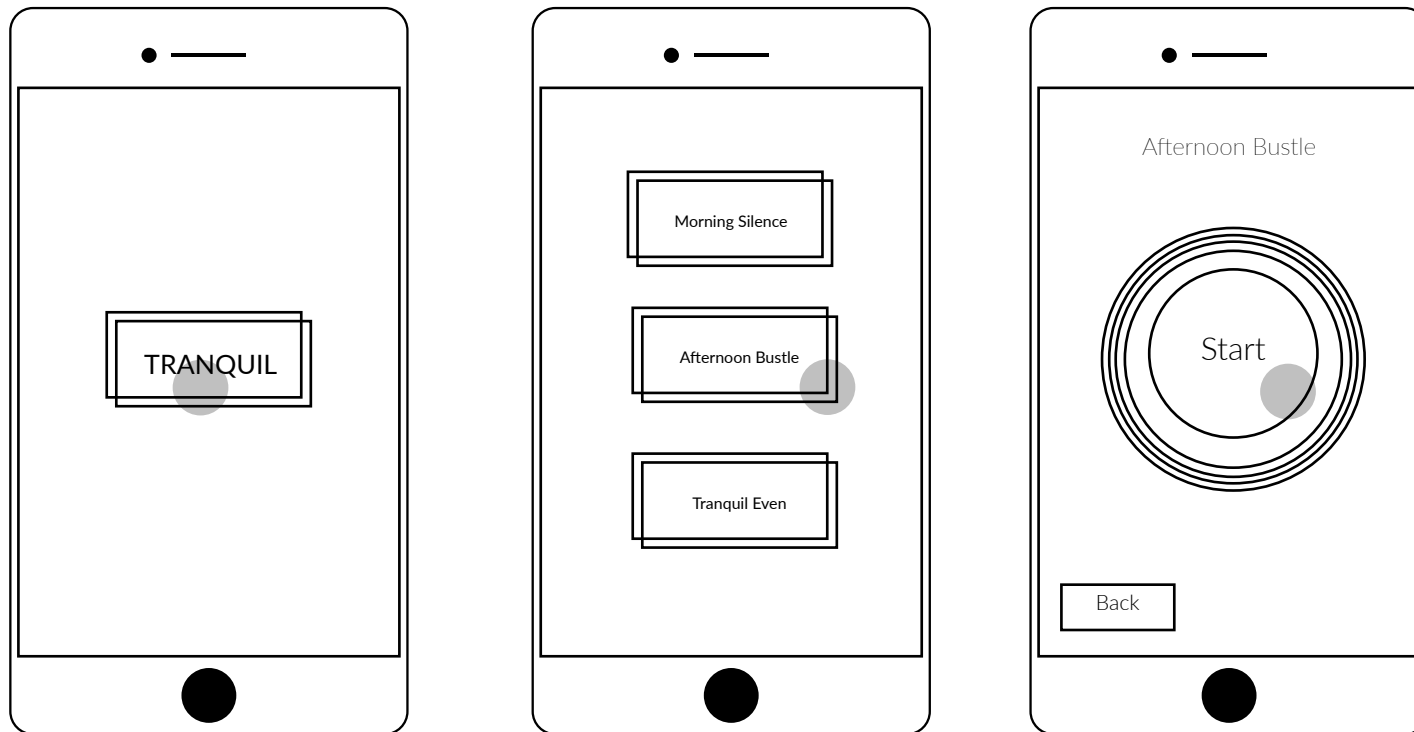

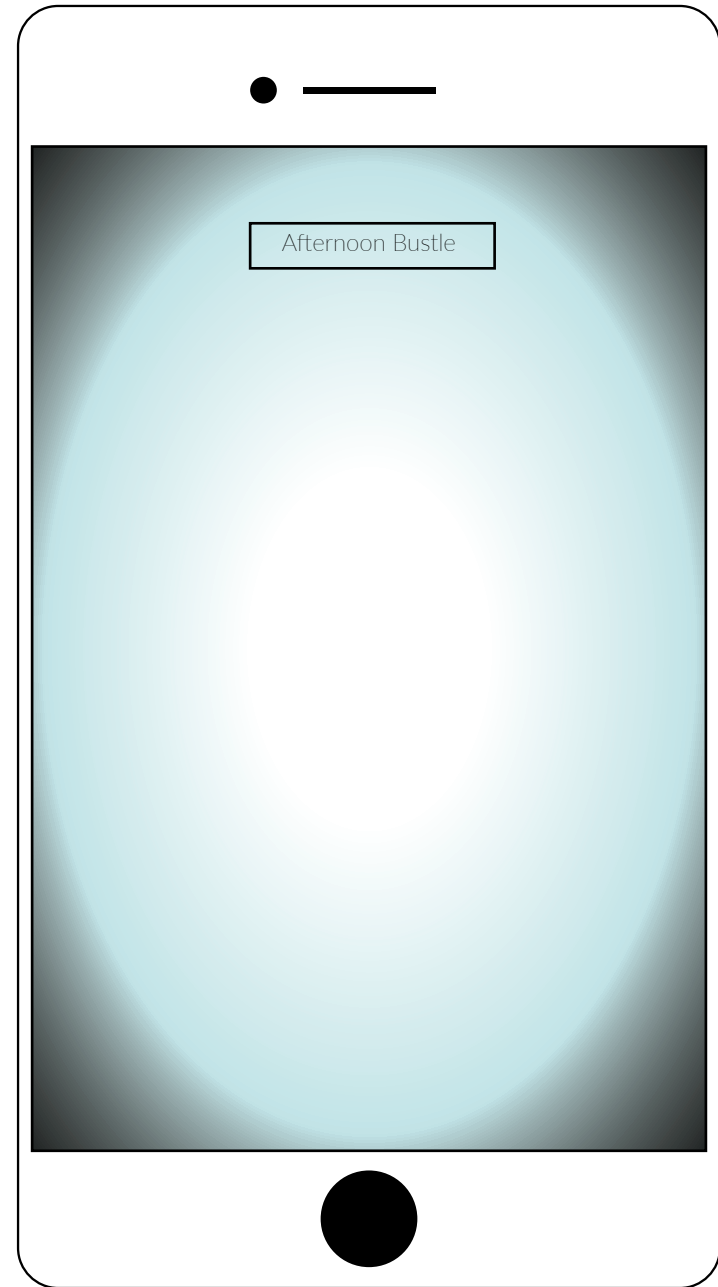

What is TRANQUIL

TRANQUIL is a mobile website that allows New School students escape the sensory overload and stresses of the bustling city. This website works best in the New School library where it is very quiet and there are many places to escape. Although the library is quiet, it can still be a little noisy with the sounds of annoying typing and page turning. Plug your earbuds in. Find a quiet spot. Relax.

How does it work

Cover Yourself
